I.D. 047 005 AAA - Filter & Automotive Additives Plants  
I.D. 047 005 AAG - Luber-Finer Plant

Based on our inspections at the referenced facilities on November 7, 1984, the Division of Air Pollution Control has determined the following apparent violations to exist at the referenced facilities:

- 1) The construction and operation of the Baron Blakeslee vapor degreaser at your Luber-Finer Plant without the Agency required permit as stated in 35 Ill. Adm. Code Subpart B, Section 201.142 and 201.143 respectively.
- 2) The open burning of trade waste is an apparent violation of 35 Ill. Adm. Code, Section 237.102(b).

This facility's DAPC I.D. Number is 047 005 AAG.

- 1) The construction and operation of three (3) organic material storage tanks at your filter manufacturing plant with a 5,000 gallon capacity or greater without the Agency required permits as stated in 35 Ill. Adm. Code, Sections 201.142 and 201.143 respectively.

NOV 27 1984

EPA-DLPC

This facility's DAPC I.D. Number is 047 005 AAA and is currently covered by permit number 73030275.

- 1) The construction and operation of six (6) organic material storage tanks at your automotive additives plant with a 5,000 gallon capacity or greater without the Agency required permits as stated in 35 Ill. Adm. Code, Sections 201.142 and 201.143 respectively.

This facility's DAPC I.D. Number is 047 005 AAA and is currently covered by permit number 75020020.

It is requested that any Multi-Media Compliance Inquiry letters sent to this company contain the aforementioned violations. If you have any questions give me a call.
